Press Release:

### Introducing New Poolesville High School Football Coach

The Poolesville High School Athletic Department and Administration proudly announces the naming of our new head football coach, Justin Sickeri.

Coach Sickeri, currently the academic intervention coordinator and lead college and career prep teacher at Northwest High School, has been with the NHS coaching staff for the last six seasons serving as offensive coordinator, and junior varsity head coach for one year.

Coach Sickeri comes highly recommended as a coach and teacher. An Athletic Director who worked with Justin said, “When it comes to dedication to student athletes, Justin is second to none. Justin developed wonderful relationships with our student athletes and they knew that he was dedicated to their success academically and athletically. When it comes to knowledge of football, Justin has demonstrated that he is a great student of the game. His situational knowledge and strategic thought is extremely effective and successful on the football field. There was never a time where Justin and team weren’t fully prepared for an opponent.”

Most importantly, Coach Sickeri is a leader who conducts himself with high moral and ethical integrity, earning him the respect of everyone he meets. His professionalism as a teacher-coach has made Coach Sickeri a standout candidate and we are proud to announce him as our new head football coach.

We will be scheduling a meeting for Coach Sickeri to meet the players later this week or early next week. Watch the morning announcements for details about the meeting.
